Plan For Safe Return To In-Person Instruction

Parent/Guardian,

As you may have heard or read in the news, in the Spring, the federal government issued a third round of monetary assistance due to the COVID pandemic. Titled the 2020-2021 American Rescue Plan, the third round of assistance through the Elementary and Secondary School Emergency Relief Fund will provide much needed assistance to help schools combat learning loss that has taken place due to the COVID issue. Summer school, an effective intervention system, smaller student to teacher ratios, supplemental programs, are all examples of how E-school can use the allocated funds. Part of the requirements to secure these funds is for each school to seek public comment in regards to producing a plan for a safe return to in-person instruction. While we are a virtual school, there are still times that teachers and students may come into contact with each other. For example, beginning of the year testing, RSA testing, field trips, gifted and talented classroom extension opportunities, state mandated testing, etc. While it is a requirement to fulfill the obligations of this assistance, we also want to take this opportunity to get feedback from you as to your thoughts or ideas about any situation that would require in-person activities. Below is a link to a survey that will allow you to express any concerns you may have in regards to any in-person activity for the 2021-2022 school year. As a stakeholder in your child's education, we feel it is vital for you to have a voice in this matter. We look forward to hearing from you and anticipate a great 2021-2022 school year!
